WORK EXPERIENCE

ARCHITECT DETAILER Feb 2023 - Nov 2024 Monnaie Architects & interiors Pvt, Ltd.

- Reviewed shop drawings and material specifications to ensure compliance with design intent.
- Utilized [AutoCAD/Revit/etc.] to create precise construction details and 3D models.
- Assisted in resolving design conflicts and provided on-site detailing support.
- Develop detailed 3D models and architectural visualizations using 90% software such as SketchUp, Revit, Lumion and Autocad
- Developed detailed architectural drawings and technical documentation for [residential/commercial/interior projects].
- Coordinated with architects, engineers, and contractors to ensure accurate execution of designs.
- Researched and specified materials, finishes, and fabrication techniques to achieve design excellence.

ARCHITECT DRAFTSMAN May 2021 - Feb 2023 Zerobase innovations Pvt, Ltd.

Planning

- Designed and detailed complex facade systems, integrating glass, metal, and composite materials.
- Produced high-precision technical drawings, including complex facade details, waterproofing solutions, and structural interfaces.
- Created precise wall sections, facade details, millwork drawings, and connection details for various project types.
- Ensured that architectural detailing aligns with structural, mechanical, and electrical requirements.
- Produced shop drawings for custom architectural elements, ensuring fabrication accuracy.
- Developed custom joinery, furniture, and metalwork details, collaborating with manufacturers for prototyping and production.
- Evaluated material samples and mock-ups to ensure feasibility and quality.
- Provided real-time detailing solutions to contractors and subcontractors to maintain project timelines.
- Identified and resolved conflicts between architectural and structural elements, preventing costly rework.
